

# RoboFRAY

The first combat robotics roll and write game.

Ages 12+ 1-6 players 45 minutes

You and up to 5 other builders will compete across 2 phases: Build and Fight. In the Build phase, fit and combine parts for speed, power, and accuracy. In the Fight phase, determine a strategy and target opponents to inflict the most damage. Win by eliminating your opponents or surviving 5 rounds with the highest valued bot.

## Components

- 6 dice
- 54 parts cards
- 6 bot boards
- 6 dry erase markers
- Rulebook

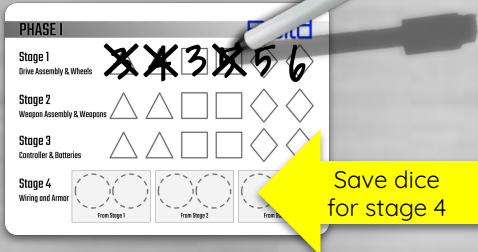

## PHASE I

### Roll the dice

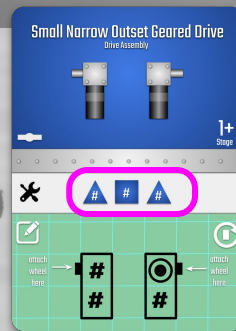

Both shapes and values of dice matter for parts.

### Track the values

There are 4 stages, each making more parts available.

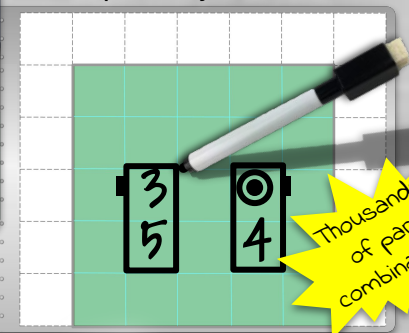

Save dice for stage 4

## Build

Use the necessary dice and draw the part inside your bot frame.

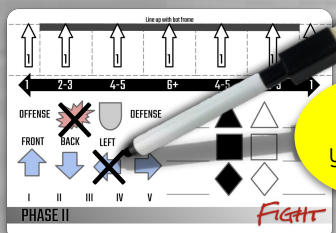

Thousands of part combinations

## PHASE II

### Choose a strategy

Secretly determine if you will be offensive or defensive against your opponent.

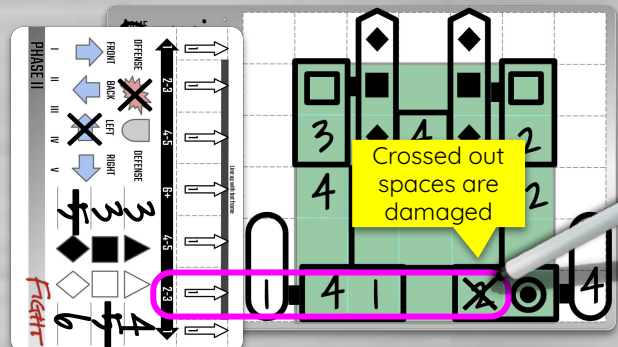

Outwit your foe

### Roll the dice

The values you keep depend on your bot construction.

The values you choose dictate the angle and depth of the hit. Cross out damaged spaces on the opponent's bot. Can you last all 5 rounds?

Crossed out spaces are damaged
